

The Ultimate Resin Company

Stunning resin bound surfaces custom made to your specification. Add value and a smart finish to your biggest investment, your home.

Our experienced installation and design teams will help you every step of the way and advise you on applications and finishes.

Make your dream home become a reality.

All natural stone and organic resin installations are SuDS (UK government Sustainable Drainage Systems legislation Oct 2008) compliant allowing water to freely drain through the surface, they are every bit as durable as concrete but without the heavy cost to the planet

The Ultimate
Resin Company

Resin

All our resin bound surfaces are made of natural stone and wholly organic resin, yet offer a strong and durable surface for all types of application.

Residential applications typically include; driveways, paths, patios parking areas and very often over the top of existing concrete stamping for a cleaner and more modern look.

Commercial applications typically include; schools, shopping malls, caravan parks and holiday sites.

For a full range of colours see our website:

The Ultimate
Resin Company

Rubber Crumb

Manufactured using re-cycled materials. These are available in a multitude of colours and patterns which makes a safe smooth and porous surface.

Excellent surface for use in areas of high risk, children's parks, schools and care homes.

Highly durable in all applications including severe changes in temperature.
